

Velcro Fabric Pop Up Display

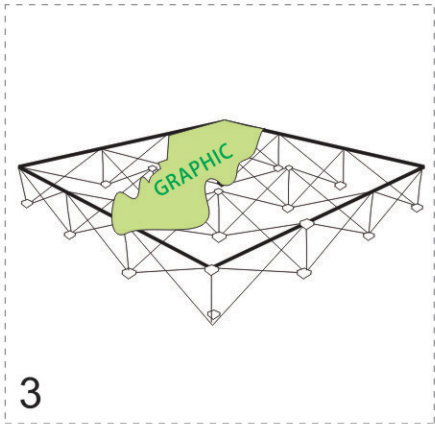

Setup Instruction of curved & straight shape

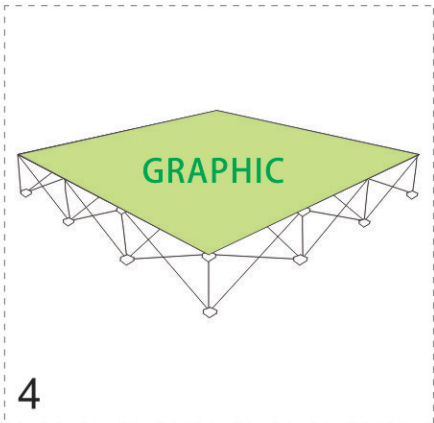

1. Stretch frame to size. Make sure webbing is not wrapped around black locking arms.

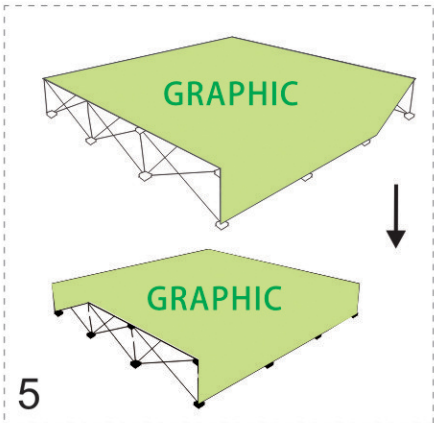

2. Align all black locking arms then nap all green locking arms into place.

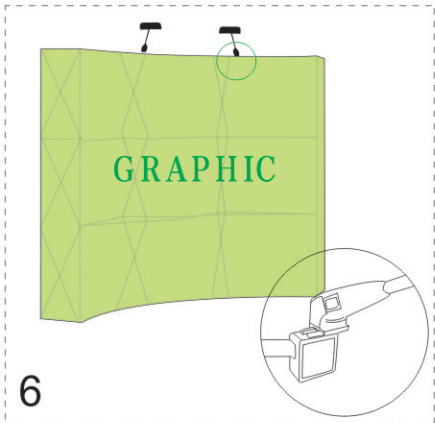

3. Graphic attaches to frame with velcro. Start in one corner and move on to the next.

4. Graphic application is complete.

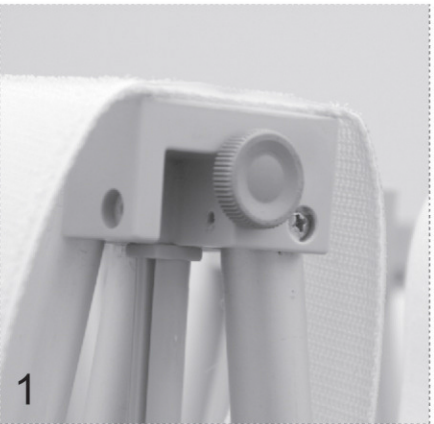

5. Pull end caps down to corner of frame and attach. Then attach other corner. Afterwards, repeat on opposite side.

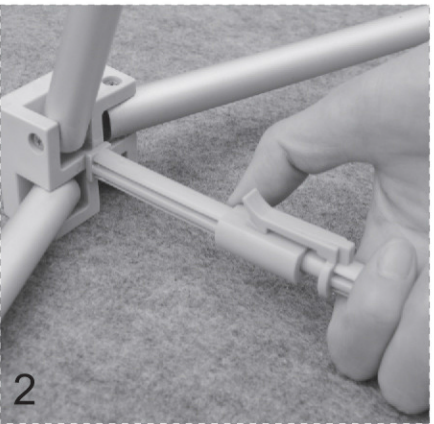

6. Attach the spot lights to the 2 mounts on top of the display stand.

TO ENSURE QUALITY, PLEASE NOTE:

1. If the ground is not level, screw the rotary button to adjust the support leg to make the display upright.

2. When disassembling, ensure that the arms are unlocked and aligned. If not, the arms will snap when pressure is applied.

3. If the webbing is wrapped around the black locking arm, the arm can snap off when opening the unit.
